Kutsyi Vladyslav Volodimirovich

Junior UI/UX Designer • Graphic Designer

About me

I work on personal and freelance projects in development, design, and 3D. I combine programming with design tasks, using both technical and visual tools. I have experience in web development, UI/UX design, graphic design, and 3D modeling. I understand front-end layout and can closely collaborate with the development team. I'm looking to join a professional environment to keep improving my skills.
